North Florida Cosmetology Institute

Return of Title IV Funds (R2T4)

For any Title IV recipient who withdraws from an eligible program of study after entering the School, the statutory return of the Title IV funds policy will be implemented. The amount of Federal Financial Aid that a student earns is determined on a pro-rated basis. Once the student has completed more than 60% of the payment period, all Financial Aid assistance is earned. This policy will calculate the amount of Financial Aid funds earned by the student during their attendance in School. The withdrawal date is defined as the student's last date of attendance, whether they are an official withdrawal, an unofficial withdrawal, or administrative withdrawal. The School will calculate the amount of Title IV Aid that was earned based on the payment period. The institution will determine:

The Title IV Aid was disbursed, or that could have been disbursed.

- » The percentage of Title IV Aid Earned by the student.
- » The amount of Title IV Aid Earned by the student.
- » The total Title IV Aid to be returned or disbursed as a post-withdrawal disbursement.
- » The amount of unearned Title IV Aid to be returned by the School.
- » The amount of unearned Title IV Aid to be returned by the student.

The School will process all refunds in the following manner:

- » Any refund will be made first to the William D. Ford Federal Direct Unsubsidized Loan up to the amount disbursed.
- » Any additional refunds will be made to the William D. Ford Direct Subsidized Loan up to the amount disbursed.
- » Any additional refunds will be made to the William D. Ford Federal Direct PLUS Loan up to the amount disbursed.
- » Any additional refunds will be made to the Federal Pell Grant Program up to the amount disbursed.

If the student receives less Title IV funds than the amount earned, the School will offer the student a disbursement of the earned aid that was not received as a post-withdrawal disbursement. Post-withdrawal disbursement will be made from Pell grant funds first if eligible. If the cost is still due to the School at the time of withdrawal, a Pell grant post-withdrawal disbursement will be applied to the student's account. Any Pell grant funds over current educational costs will be sent directly to the student. For any federal loan program funds due, a post-withdrawal disbursement must be offered to the student. The Institute must receive the student's authorization before crediting the student's account with federal loan funds due from a post-withdrawal disbursement.

NOTE: Examples of Return to Title IV calculations and Institution Refund Policy are available in the Financial Aid Department.

Leave of Absence Policy (LOA)

LEAVE OF ABSENCE (LOA) An LOA may be requested for any reason, whether personal or medical, for the student's needs. Requests for LOA must be submitted in advance in writing, including the reason for the request and the student's signature. Suppose unforeseen circumstances prevent the student from requesting the LOA in advance. In that case, the institution may grant an LOA to a student if the institution documents the reason for its decision and collects the student's request at a later date. For example, a student is involved in an accident and needs a few weeks to recover. The student could not request the LOA in advance – the institution would determine the beginning date of the LOA to be the first date the student could not attend School due to the accident.

NOTE: 14 consecutive (calendar) days absent is considered an automatic withdrawal.

- A student will not be granted an LOA if the LOA, together with any additional LOAs previously granted, exceeds 180 calendar days in any 12-month period, as defined by the Department of Education.
- A leave of absence must not exceed 60 days unless for medical reasons.
- Medical leaves of absence must be documented and must not exceed 180 days.
- There must be a reasonable expectation the student will return from the LOA
- Approval of the student's request for an LOA follows the institution's policy.
- Students must return before the next scheduled school day following the end date on the LOA.
- The status of a student upon LOA absence will remain the same as before that leave.
- The Institute will extend the student's contract period by the same number of calendar days in the LOA. All parties must initial changes to the contract period on the Enrollment Agreement Addendum must be signed and dated by all parties.
- The Institute may not assess the student for any additional charges because of the LOA.
- A student granted an LOA that meets these criteria is not considered withdrawn, and no refund calculation is required.
- For students who do not return from a leave of absence, the withdrawal date to calculate a refund is always the student's last day of attendance.
- The students must follow the institution's policy in requesting the LOA.

North Florida Cosmetology Institute

Evaluations will determine if the student has met the minimum requirements for satisfactory academic progress. The frequency of evaluations ensures that students have had at least one evaluation by the midpoint in the course.

ATTENDANCE PROGRESSEVALUATIONS

Students must attend a minimum of 67% of the hours possible based on the applicable attendance schedule to maintain satisfactory attendance progress. Evaluations are conducted at the end of each period to determine if they meet the minimum requirements. The attendance percentage is determined by dividing the total hours accrued by the total number of hours scheduled. At the end of each evaluation period, the School will determine if the student has maintained at least 67% cumulative attendance since the beginning of the course, which indicates that, given the same attendance rate, the student will graduate within the maximum time frame allowed.

MAXIMUM TIME FRAME

The maximum time (which does not exceed 150% of the course length) allowed for students to complete each course at satisfactory academic progress stated below:

MAXIMUM TIME ALLOWED

Course	Total Hours	Scheduled Hours	Weeks of Instruction
Cosmetology (full-time)	1200	1800	65
Restricted Barber (full-time)	600	900	32
Barber (full-time)	900	1350	48
Full Specialist (full-time)	600	900	32
Facial/Skin Care Specialist (full-time)	240	330	12
Nail Technology (full-time)	180	270	11

The maximum time allowed for transfer students who need less than the full course requirements will be determined based on 150% of the scheduled contracted hours.

Students who have not completed the course within the maximum timeframe may continue at the institution on a cash-pay basis.

ACADEMIC PROGRESS EVALUATIONS

The qualitative element used to determine academic progress is a reasonable grading system determined by assigned academic learning. Students are assigned academic learning and a minimum number of practical experiences. Academic learning is evaluated after each unit of study. Practical assignments are evaluated as completed and counted toward course completion only when rated as satisfactory or better (the computer system will reflect the practical assignment's completion as a 100% rating). If the performance does not meet satisfactory requirements, it is not counted and must be repeated. At least two comprehensive practical skills evaluations will be conducted during the program. Practical skills are evaluated according to text procedures and in practical skills evaluation criteria adopted by the School. Students must maintain a written grade average of 70% and pass a FINAL written and practical exam before graduation. Students must make up for failed or missed tests and incomplete assignments. Numerical grades are considered according to the following scale:

100 – 90	Excellent
89 – 80	Very Good
79 – 70	Fair
69 – Below	Below Standards - Unsatisfactory

DETERMINATION OF PROGRESS STATUS

Students meeting the minimum requirements for academics and attendance at the evaluation point are considered to be making satisfactory academic progress until the next scheduled evaluation. Students will receive a hard copy of their Satisfactory Academic Progress Determination at the time of each of the evaluations. Students deemed not maintaining Satisfactory Academic Progress will lose Title IV Funding eligibility unless they are on warning.

WARNING

Students who fail to meet minimum requirements for attendance or academic progress are placed on warning and considered to be making satisfactory academic progress during the warning period. The student will be advised in writing on the actions required to attain satisfactory academic progress by the next evaluation. If the student has still not met both the attendance and academic requirements at the end of the warning period, he/she may be deemed ineligible to receive Title IV funds.

RE-ESTABLISHMENT OF SATISFACTORY ACADEMIC PROGRESS

North Florida Cosmetology Institute

Students may re-establish satisfactory academic progress and Title IV aid, as applicable, by meeting minimum attendance and academic requirements.

INTERRUPTIONS, COURSE INCOMPLETES, WITHDRAWALS

If enrollment is temporarily interrupted for a Leave of Absence, the student will return to School in the same progress status before leaving absence. Hours elapsed during a leave of absence will extend the student's contract period and maximum time frame by the same number of days taken in the leave of absence and will not be included in the student's cumulative attendance percentage calculation. Students who withdraw before completing the course and wish to re-enroll will return in the same satisfactory academic progress status as at the withdrawal time.

NONCREDIT, REMEDIAL COURSES, REPETITIONS

Noncredit, remedial courses, and repetitions do not apply to this institution. Therefore, these items do not affect the School's satisfactory academic progress standards.

TRANSFER HOURS

Concerning Satisfactory Academic Progress, a student's transfer hours will be counted as both attempted and completed hours to determine when the allowable maximum time frame has been exhausted. SAP periods are based on actual contracted hours at the institution.

Re-Entry

If a student has been granted an appeal for reinstatement or is reentering the program after an interruption of training commenced at the time the student withdrew, the following procedure will apply.

- A. The student will return at the rate of progress attained as they were when the interruption of their training occurred.
- B. The student will be evaluated at the re-entry period. If at this time he/she has fallen below minimum standards, he/she will be terminated.
- C. A reentering student will be charged at the current tuition rate.

Grading & Graduation Requirements

Theoretical and practical grading shall be as follows:

100 – 90	Excellent
89 – 80	Very Good
79 – 70	Fair
69 – Below	Below Standards - Unsatisfactory

All students are enrolled for a one-month probationary period. Should the student's progress be unsatisfactory at the end of the probationary period, the student will be counseled to ascertain if he/she has a sincere desire to continue the program in which they are enrolled.

To graduate, students must successfully complete all work assignments, services, pass the final written exam with a satisfactory average, complete the required hours of their program, satisfy all financial obligations to the School, and schedule and attend an exit interview before the last day of class.

Once all the above requirements and financial obligations are met, students are awarded a Diploma at their exit interview, together with the appropriate application they present to the Board of Cosmetology either for immediate licensure or to sit for the state examination for licensure.

Placement & Advising Policy

Guidance and advising for placement will be provided from when students begin classes until graduation or termination. Types of advising to be offered by the School are Educational (as related to academic and attendance progress), financial (as required by applicable state and federal regulations), and occupational (information about licensure, employment, etc.).

North Florida Cosmetology Institute

Placement is the final step of a student's educational training. The process begins with an interview with the Director of Education to discuss future employment goals. The Director of Education will then set up interviews, when possible, with appropriate personnel representing the many salons that are interested in employing North Florida Cosmetology Institute, Inc. graduates.

Tips on job interviewing techniques and a follow-up analysis of each interview are part of placement advising. By working closely with the Director of Education, the student can match skills and interests with available jobs.

North Florida Cosmetology Institute, Inc. does not guarantee employment to its students. The school placement assistance procedures include identifying employment opportunities and advising students on appropriate means of realizing those opportunities. We strive to maintain current Job Boards and publish employment opportunities, when possible, on Social Media for students and graduates.

VA (Veterans Affairs) Attendance Policy

Early departures, class cuts, unexcused tardies, etc., for any portion of a class period.

Students exceeding **20% total** absence in a calendar month will be terminated from their VA benefits for unsatisfactory attendance.

To show that the cause of unsatisfactory attendance has been removed, students must show good attendance (as defined) for one calendar month after being terminated for satisfactory attendance. After such time, the student may be recertified for the VA benefits.

The student's attendance record will be retained in the veteran's file for USDVA and SAA audit purposes.

VA Standards of Academic Progress

Students receiving VA educational benefits must maintain a minimum cumulative grade point average (CGPA) of 80% each evaluation period.

A VA student whose CGPA falls below 80% at the end of any evaluation period will be placed on academic probation for a maximum of two consecutive terms of enrollment. If the VA student's CGPA is still below 80% at the end of the second consecutive term of probation, the student's VA educational benefits will be terminated.

A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the School to be recertified after attaining a CGPA of 80%.

A VA student terminated from VA educational benefits due to unsatisfactory progress may petition the School to be recertified after attaining a CGPA of 80%.

VA Refund Policy

The refund of the unused portion of tuition, fees, and other charges for veterans or eligible persons who fail to enter a course or withdraw or discontinue prior to completion will be made for all amounts paid which exceed the approximate pro-rata portion of the total charges that the length of the completed portion of the course bears to the total length of the course. The proration is determined by the ratio of the number of days or hours of instruction completed by the student to the total number of instructional days or hours in the course.

VA Credit for Previous Education or Training

Students must report all education and training. The School must evaluate and grant credit, if appropriate, with the training time shortened, the tuition reduced proportionately, and the VA and student notified.

The Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) (20 USC § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the US Department of Education.

FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

- Parents or eligible students have the right to inspect and review the student's education records maintained by the School. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies. Parents or eligible students have the right to request to correct school records which they believe to be inaccurate or misleading. If the School decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the School still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
 - School officials with legitimate educational interest.
 - Other schools to which a student is transferring.
 - Specified officials for audit or evaluation purposes;
 - Appropriate parties in connection with financial aid to a student.
 - Organizations conducting certain studies for or on behalf of the School.
 - Accrediting organizations.
 - To comply with a judicial order or lawfully issued subpoena.
 - Appropriate officials in cases of health and safety emergencies; and
 - State and local authorities within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the School not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each School.
